

# Union Hall 1.0 Actions

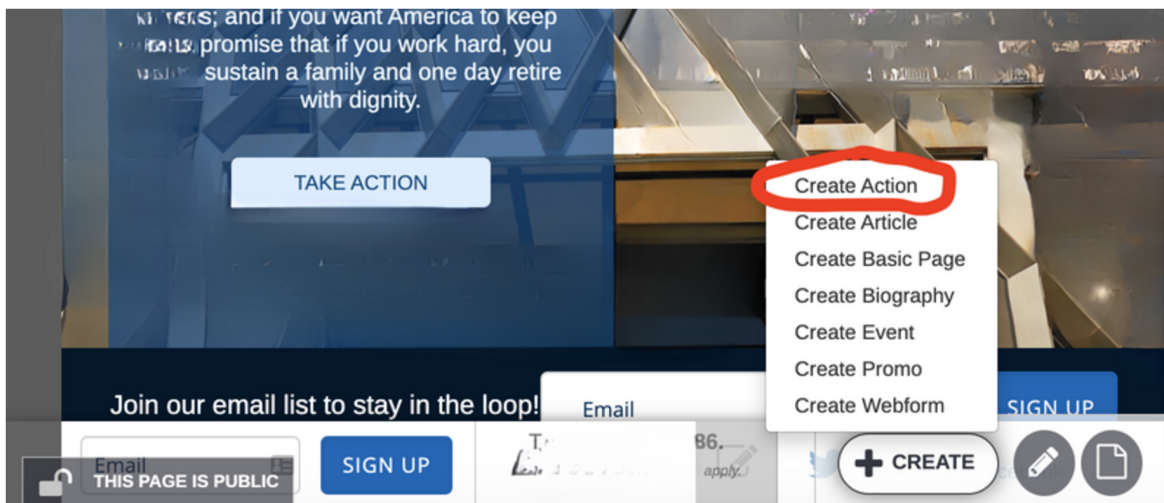

By adding actions to your Union Hall site, you can direct users to sign petitions, take part in message actions to CEOs or politicians, and more!

The first thing to know is that Union Hall doesn't create an action page. It only links to an action created somewhere else. So first find whatever advocacy tool your union use, create your petition or other action, and then grab the URL of that action and bring it to Union Hall.

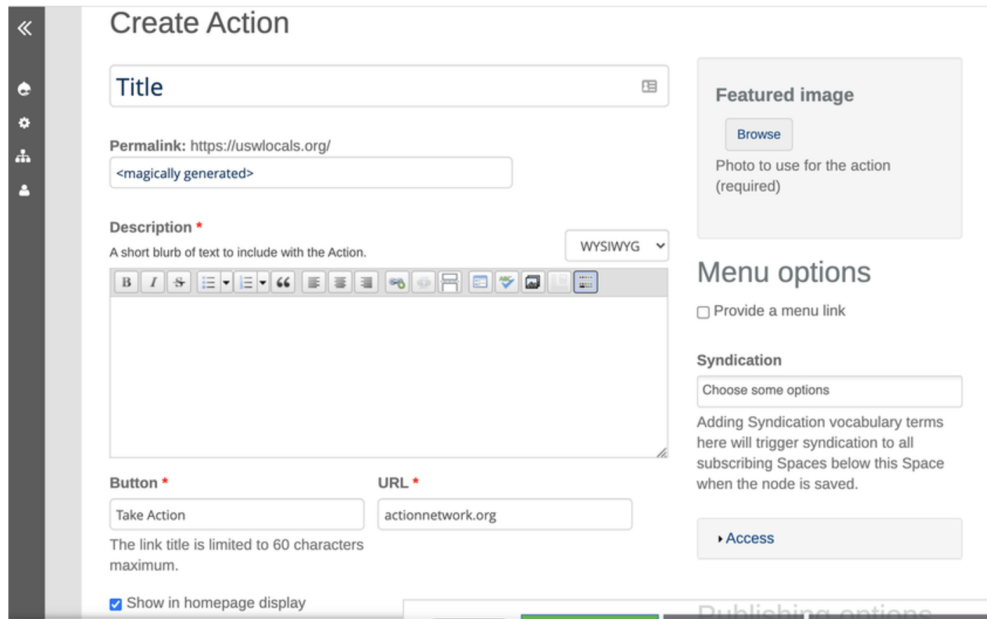

## How to Add an Action

In order to make an action on Union Hall, which can be used for the Hero Button or be featured elsewhere on your site, first click on the create button on the main page:

When you make an action, there are a few things that are required. These include the title, button text and URL, an image and a description.

If you click “Show in homepage display” your action will be added to the homepage, although it will not be automatically featured on the Hero Image:

**Create Action**

**Title**

Permalink: <https://uswlocals.org/>  
<magically generated>

**Description \***  
A short blurb of text to include with the Action.

WYSIWYG

**Button \***  
Take Action

**URL \***  
actionnetwork.org

The link title is limited to 60 characters maximum.

☒ Show in homepage display

**Featured image**  
Browse  
Photo to use for the action (required)

**Menu options**  
☐ Provide a menu link

**Syndication**  
Choose some options  
Adding Syndication vocabulary terms here will trigger syndication to all subscribing Spaces below this Space when the node is saved.

Access

If you click to show in homepage display, your action will show up on the homepage below the hero image:
